

Fundamental Decisions Training

This comprehensive course covers essential foundational topics, including Mapping, Flows, Rules, Data Management, Reports, and Project Building. Each module is designed to equip you with the knowledge and skills needed to learn the fundamentals of the platform effectively.

The training consists of video lessons followed by training challenges and comprehensive knowledge check quiz.

There is also a mini project which students will do at the end of the course to apply all the skills gained throughout the course.

A training environment will be provided for the students to complete the challenges and build the mini project. Upon completion of the training a certificate will be awarded to the students.

Following is the course outline for the training program.

<ul style="list-style-type: none">1. Workflows<ul style="list-style-type: none">a. Flow overviewb. Flow Designer Overviewc. Variables & data typesd. Data mappinge. Advanced data mappingf. Intro to flow designg. ForEach steph. Debugger deep-dive2. Rules<ul style="list-style-type: none">a. Intro to rulesb. Intro to statement rulesc. Introduction to Truth Tables3. Data Structures<ul style="list-style-type: none">a. Data structures overviewb. Introduction to data accessc. Fetching Datad. Configuration folders4. Forms<ul style="list-style-type: none">a. Introduction to forms designerb. Introduction to formsc. Introduction to layoutd. Introduction to flex layoute. Active form flows – Data changesf. Active form flows – Validation rules	<ul style="list-style-type: none">5. Reports<ul style="list-style-type: none">a. Introduction to reportsb. Configuring report columnsc. Calculated columnsd. Report filterse. Charts & views6. Assignments<ul style="list-style-type: none">a. Introduction to assignments7. Dashboards<ul style="list-style-type: none">a. Introduction to dashboardsb. Reorder and remove dashboardsc. Common page controls8. Process Tracking<ul style="list-style-type: none">a. Introduction to process tracking9. Purchase Request Application (Mini Project)
